If I need a break, I can let my therapist or mum/dad know and I can use the calm down corner.

If I need to go to the toilet, I can tell my therapist or mum/dad and they can help me find the toilets.

I will be able to make new friends and play with other kids

When I have decided what game to play, I can sit next to another person and say, "do you want to play?"

My parents and therapists are proud of me for making new friends

**Looking forward to seeing you there!**
