

Employee Referral Program

**Earn Easy Cash,
by helping us recruit**

I would like to tell you about our Employee Referral Program that we are running for the next two months. **This is going to give you the opportunity to earn some extra cash**

People who have similar interests usually stick together, teachers have teacher friends and you probably have some friends that have the same or similar occupations to yourself. You could be rewarded with a bonus by simply knowing someone! Interested?

Here is how it works:

**We give you a \$10 gift card for referring a name
If they get hired you get \$500 cash! You deserve the reward!**

How good would it be to earn several hundred dollars for a few minutes work! Imagine having a little bit of extra cash to splash on a nice dinner, or a weekend away. Buy those shoes you have been dreaming about, give to charity or put it towards a loan repayment to get ahead. The choice is yours!

So from here what you need to do is start sharing Spectrum Therapy's vacancies through your network on social media. The best way to refer is to use your friend network to refer the job to a friend of a friend of a friend. Facebook groups that you may have joined in uni days are also a great way to let your peers know of our current opportunities!

More information on the roles can be found here on our website

<https://www.spectrumtherapy.com.au/join-our-team/>

Or follow us on socials and share with friends via

@spectrumtherapy

@spectrumtherapyaustralia

The current roles we have available at Spectrum Therapy Australia are

- Child Psychologist (Full Time & Part Time)
- Occupational Therapist (Full Time & Part Time)
- Speech Pathologist ((Full Time & Part Time)

Send any names, resumes or contact details to enquiries@spectrumtherapy.com.au

And if someone does apply for a job and get an interview, on your recommendation be sure to tell us so you can be rewarded, if they are successful in the role.

Remember this program is only for the next couple of months so get your thinking caps on and start referring!
